

Reining in Your Rural Resources

A Conservation Planning Series for Whidbey Island Farmers

Led by Whidbey Island Conservation District's Natural Resource Planners
Bruce Gordon, Karen Bishop, Ken Drecksel, Matt Zupich

Location: South Whidbey
Parks & Recreation District,
Room 111,
5475 Maxwellton Rd., Langley

Date(s):
Thursdays,
6:00-8:00pm

- **Part 1: March 22**
Conservation Planning
Overview
- **Part 2: March 29**
Resource Concerns
– Identifying and
Assessing Problems
- **Part 3: April 5**
Best Management Practices
– Effective Solutions to
Identified Problems

A 3-part series
to connect you, as a rural property owner,
with useful tools and resources to plan natural
resource conservation practices on your property.

Are you interested in enhancing your property while protecting water quality? Are you a rural landowner managing livestock, manure, pasture, or crops? Are you interested in learning how to create your own Conservation Plan? This series is for you!

After an informative overview session

on Day 1 in which the benefits and challenges of Conservation Planning are discussed, Days 2 and 3 will link attendees with Whidbey Island Conservation District's four natural resource planners to help you develop goals and objectives for a personalized conservation plan you can understand and implement.

RSVP required for Part 1 – limit to 25 people
Register by March 1st at
www.whidbeycd.org/conservation-planning-workshop.html

Can't make all three days of this series? No worries!

Join us for Day 1 by selecting "Day 1 Only" to come learn about the benefits of conservation planning and ask our natural resource planners questions. Want to join us for all three days? Select the "Days 1, 2, 3 – ALL" option to guarantee yourself a spot, or wait to sign up at the end of the Day 1 session.
